- (a) the reseeded of the damaged acreage, provided that,
 - (i) the variety of corn reseeded is one prescribed by paragraph 13 for the area in which the damaged acreage is situate, and
 - (ii) the reseeded is completed not later than seven days after the date prescribed by Table 2 as the final date for seeding in the area in which the damaged acreage is situate; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is reseeded to corn in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage and the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$5 for each reseeded acre.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

- (a) 30 per cent of the guaranteed production for the damaged acreage; or
- (b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per bushel.

(5) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

16.—(1) Stage 2 commences on the 16th day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any seeded acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the amount by which 80 per cent of the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the established price per bushel.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

17.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

FINAL ADJUSTMENT OF LOSS FOR TOTAL SEEDED ACREAGE

18. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2 and Stage 3 loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

19.—(1) Where the actual seeded acreage of corn in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of corn in a crop year exceeds the seeded acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

DURATION OF INSURANCE

2. The contract of insurance for soybeans is in force for the crop year in which it is made and continues in force for each crop year thereafter until it is cancelled or terminated in accordance with the regulations.

COVERAGE

3. The coverage provided for soybeans in each crop year is the lesser of,

applied to the total acreage seeded to soybeans by the insured person in accordance with the regulations.

TOTAL GUARANTEED PRODUCTION

4. The number of bushels determined in accordance with paragraph 3 is the total guaranteed production of soybeans for a crop year.

INDEMNITY

5. The maximum indemnity payable for a loss in production of soybeans in a crop year is the amount obtained by multiplying the total guaranteed production by the price per bushel established in the plan.

PREMIUM

6. For each crop year in which the insured person seeds acreage to soybeans, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

7. In each crop year in which the contract of insurance is in force for soybeans, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

8. The crop year for soybeans is the period from the 1st day of March in any year to the 15th day of November next following.

SEEDING DATES

9. Soybeans shall be seeded not earlier than the 15th day of May, and not later than the 20th day of June, in a crop year.

HARVESTING OF SEEDED ACREAGE

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than the 15th day of November or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any seeded acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of the unharvested acreage.

(5) Where, with the consent of the Commission under subparagraph 1, any seeded acreage is used for a purpose other than harvesting, the Commission shall determine the potential production of such acreage, and such potential production shall be taken into account in the final adjustment of loss.

11.—(1) On receipt of a notice under subparagraph 3 of paragraph 10, the Commission shall determine,

- (a) the number of unharvested acres and the potential production thereof; and
- (b) whether the harvesting of the seeded acreage was prevented by reason of one or more of the causes of loss insured against.

(2) Where the Commission determines that harvesting of any seeded acreage was prevented by reason of one or more of the causes of loss insured against, the Commission may extend the time for harvesting of the seeded acreage for such period as it deems proper.

VARIETIES OF SOYBEANS

12. Except as otherwise determined by the Commission, acreage may be seeded only to varieties of soybeans recommended in Publication No. 296 of the Department of Agriculture and Food entitled "Field Crop Recommendations" for the area in which the seeded acreage is situate.

EVALUATION OF LOSS

13. For the purpose of determining the loss in production of soybeans in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 14, 15 and 16.

STAGE 1

14.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to soybeans is completed to and including the 20th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) the reseeded of the damaged acreage, provided that,

(i) the variety of soybeans reseeded is one prescribed by paragraph 12 for the area in which the damaged acreage is situate, and

(ii) the reseeded is completed not later than the 20th day of June; or

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is reseeded to soybeans in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage and the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$5 for each reseeded acre.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying,

(a) 30 per cent of the guaranteed production for the damaged acreage; or

(b) the difference between the guaranteed production and the potential production determined under clause *b* of subparagraph 2 for the damaged acreage,

whichever is the lesser, by the established price per bushel.

(5) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

15.—(1) Stage 2 commences on the 21st day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

(a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or

(b) the harvesting of any seeded acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the amount by which 90 per cent of the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the established price per bushel.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

16.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

FINAL ADJUSTMENT OF LOSS FOR TOTAL SEEDED ACREAGE

17. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2 and Stage 3 loss calculations applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

18.—(1) Where the actual seeded acreage of soybeans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of soybeans in a crop year exceeds the seeded acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

PREMIUM

6. For each crop year in which the insured person seeds acreage to white beans, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

7. In each crop year in which the contract of insurance is in force for white beans, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

SEEDING DATES

9. White beans shall be seeded not earlier than the 20th day of May, and not later than the 25th day of June in a crop year.

HARVESTING OF SEEDED ACREAGE

10.—(1) All acreage seeded to white beans in a crop year shall be harvested as white beans unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than the 20th day of October or such other date as may be determined from time to time by the Commission.

11.—(1) On receipt of a notice under subparagraph 3 of paragraph 10, the Commission shall determine,

- (a) the number of unharvested acres and the potential production thereof; and
- (b) whether the harvesting of the seeded acreage was prevented by reason of one or more of the causes of loss insured against.

(2) Where the Commission determines that harvesting of any seeded acreage was prevented by reason of one or more of the causes of loss insured against, the Commission may extend the time for harvesting of the seeded acreage for such period as it deems proper.

VARIETIES OF WHITE BEANS

12. Except as otherwise determined by the Commission, acreage may be seeded only to varieties of white beans recommended in Publication No. 296 of the Department of Agriculture and Food entitled "Field Crop Recommendations" for the area in which the seeded acreage is situate.

EVALUATION OF LOSS

13. For the purpose of determining the loss in production of white beans in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 14, 15 and 16.

STAGE 1

14.—(1) Stage 1 comprises the period from the date on which the seeding of acreage to white beans is completed to and including the 25th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, there shall be no loss calculation to be taken into account in the final adjustment of loss in respect of the total seeded acreage but the value of the crop shall progress into Stage 2, and the provisions of paragraph 15 shall apply, unless,

(a) the Commission consents in writing, upon application in writing by the insured person, to reseeded of the damaged acreage, on condition that,

(i) the variety of white beans reseeded is one prescribed by paragraph 12 for the area in which the damaged acreage is situate, and

(ii) the reseeded is completed not later than the 25th day of June or such other date as may be approved by the Commission; or

(b) the Commission consents in writing, upon application in writing by the insured person, to use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage.

(3) Where reseeded of damaged acreage is completed in accordance with clause a of subparagraph 2, the contract of insurance shall continue to apply to such reseeded acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with clause b of subparagraph 2, the total seeded acreage shall be deemed to be reduced, and the guaranteed production, amount of insurance, and premium shall be reduced proportionately.

STAGE 2

15.—(1) Stage 2 commences on the 26th day of June in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) reseeded of the damaged acreage, on condition that,

(i) the variety of white beans reseeded is one prescribed by paragraph 12 for the area in which the damaged acreage is situate, and

(ii) the reseeded is completed on a date approved by the Commission,

and, in such case, the contract of insurance shall continue to apply to such reseeded acreage; or

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage

and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

(a) the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with clause b of subparagraph 2; or

(b) the harvesting of any seeded acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying by the established price per pound the amount by which 80 per cent of the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

STAGE 3

16.—(1) Stage 3 applies to seeded acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR TOTAL SEEDED ACREAGE

17. The indemnity payable with respect to the total seeded acreage in the final adjustment of loss shall be the sum of all Stage 2 and Stage 3 loss calculations applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

18.—(1) Where the actual seeded acreage of white beans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of white beans in a crop year exceeds the seeded acreage declared on the final acreage report, the guaranteed production per acre shall be reduced proportionately.

Smith's Wholesale (Manitoulin)
Limited, 02406
Gore Bay, Ontario.

The Ontario Highway Transport Board, pursuant to Section 16 of The Ontario Highway Transport Board Act, will consider the following Notice of Motion:

IN THE MATTER OF The Public Commercial Vehicles Act;

AND IN THE MATTER OF The Highway Traffic Act;

AND IN THE MATTER OF the decision of the Ontario Highway Transport Board dated December 14th, 1967 issued to Smith's Wholesale (Manitoulin) Limited.

NOTICE OF MOTION

TAKE NOTICE that pursuant to Section 16 of The Ontario Highway Transport Board Act, the Ontario Highway Transport Board will be moved at such time as it may deem fit for an Order directing a review of the Board's Decision dated December 14th, 1967, approving of the transfer of an operating licence previously held by Norman Beauvais, operating as Killarney Transport, on the following grounds:

1. That a clear and concise statement of the effect of said transfer, namely, the creation of a Class 'A' service between Metropolitan Toronto and Sudbury was not given to the public;
2. That the effect of the said transfer of the subject operating authority creates a direct Class 'A' service between two major urban municipalities, namely, Sudbury and Metropolitan Toronto without the benefit of a public hearing and the absence of standard principles of proof of public necessity and convenience;
3. It is not in the public interest that a transportation service be instituted between two major urban municipalities without a public hearing;
4. That an Order issue forthwith directing Smith's Wholesale (Manitoulin) Limited to cease and desist from performing a service between Sudbury and Metropolitan Toronto until such time as this Motion has been adjudicated upon;
5. And upon such further and other grounds as Counsel may advise.

AND TAKE NOTICE that in support of such Motion will be heard the Argument of Counsel on behalf of the Intervenor; and has fixed Tuesday, the 9th day of July, 1968, at 10 a.m. (E.D.S.T.) at its Chambers, 67 College Street, Toronto, Ontario, for that purpose.

(3) Where the amount paid during the ten year period mentioned in subsection 2 exceeds the amount accruing during that period, the excess shall be applied upon any amount accruing prior to that period.

8.—(1) In this section,

- (a) "debtor" means a person who is liable for maintenance under the Act;
- (b) "dependant" means,
 - (i) a child under twenty-one years of age who is not in receipt of a taxable income or a child who is over twenty-one years of age but dependent because of disability and who is not in receipt of a taxable income, or

(4) Where the debtor dies leaving no dependant and the amount that is due and owing for the maintenance exceeds the value of the estate, the Deputy Minister may give a discharge for the amount that is due and owing upon payment of the balance of the estate after deducting,

10. Except as provided by sections 7 and 8, nothing in this Regulation shall be construed to relieve any person or persons or property from liability for the maintenance of any patient, and the execution of any bond or agreement for the payment of maintenance shall not have any such effect or in any way interfere with or prevent any other remedies for the recovery of moneys owing for the maintenance of a patient at the full rate of maintenance.

APPROVED HOMES

11.—(1) The Department may pay an amount of \$28 a week for the care and maintenance of patients in an approved home.

(2) Where special care and maintenance are required by a patient, the Department may pay a weekly amount in excess of \$28.

(4) Subject to section 16, where an employee has a negative reaction to his first tuberculin test and a positive reaction to any subsequent test, he shall receive an x-ray film of the lungs forthwith after such test and every three months for the next year, an additional x-ray film in six months thereafter and an additional x-ray film every twelve months thereafter.

(5) Every employee whose x-ray film shows evidence of abnormal shadowing shall forthwith receive further examination to determine the nature of the disease.

(6) No tests other than the intra-dermal (Mantoux) test, using one-twentieth of a milligram of Old Tuberculin, shall be used for the tests required by this section.

16. Where an employee is found to have developed a positive tuberculin reaction because of the administration of Bacillus Calmette-Guerin Vaccine, the employee shall receive an x-ray film of the lungs forthwith after developing the positive reaction and every twelve months thereafter, as long as the tuberculin sensitivity remains.

17. Notwithstanding subsection 6 of section 15, where an employee produces a certificate by a duly qualified medical practitioner stating that the intra-dermal (Mantoux) test causes an unusually severe reaction in the employee, the intra-dermal test shall not be performed on that employee, but he shall receive an x-ray film of the lungs within one week after the commencement of his employment and every twelve months thereafter.

18. No employee found to be suffering from active tuberculosis shall be permitted to work in the institution and the officer-in-charge shall report the case within twenty-four hours to the medical officer of health of the municipality in which the employee resides and to the medical officer of health in the municipality in which he is employed.

19.—(1) Where an employee shows evidence of tuberculosis, the officer-in-charge shall give to the Workmen's Compensation Board and to the Department written notice thereof, including a complete report of the medical findings within seven days of the time of diagnosis.

(2) Every officer-in-charge shall keep a permanent record of all examinations and tests of every employee of the institution and, if requested, shall send a copy of any record, including the x-ray films, to the Workmen's Compensation Board or to the Department.

(3) The permanent record of all examinations and tests referred to in subsection 2 shall be kept by the officer-in-charge for three years after the employee ceases to be employed in the institution.

(4) Any officer of the Workmen's Compensation Board who is authorized by its chairman may inspect the medical records of an employee at any time.

20. The institution is responsible for all examinations for tuberculosis of an employee and none of the expenses thereby incurred are payable by the employee.

21. No employee shall be detailed to care for a patient believed or suspected to be suffering from tuberculosis until the employee has received instructions as to the necessary technique to protect himself and others against infection and, where possible, the employee so detailed shall be a positive reactor to the tuberculin test.

22. Upon ceasing to be employed, every employee who has been employed for four or more months shall receive an x-ray film of the lungs and a non-reactor shall also receive a tuberculin test.

23. Nothing contained in sections 14 to 22, both inclusive, shall prevent any person from being employed in an institution when his tuberculosis is inactive.
